

The Company

Bay Area Circuits is the ideal PCB manufacturer for today's electronics industry. Founded in 1975, BAC has earned a solid reputation as a reliable source for printed circuit boards. Our focus is to provide PCBs for research and development as well as production requirements for business today.

*“Excellent
company to
deal with”*
- Raul Garcia

The Problem

Bay Area Circuits was looking for a way to improve their quality and also needed to expand their customer base.

The Solution

The Fast Track - Alamo Learning Systems provided consulting services to Bay Area Circuits to implement ISO 9000:2000. “Our experience with Alamo was very informative. They listened to how our company operated and made adjustments to fit our needs” - Bay Area Circuits

The Benefits

“The Fast Track Program has taken our company to another level of quality and opened new doors to new customers because of our ISO status”

The People

“Alamo has excellent people to work with. They were patient with our management team and very professional.”
